BNY

India

Subject: Application for Internship Opportunity

Dear Hiring Manager,

I am writing to express my interest in an internship opportunity at BNY. I am currently pursuing Bachelor of Technology degree in Computer Science Engineering at Kalinga Institute of Industrial Technology (KIIT), where I have maintained a CGPA of 8.94 till last semester and gained strong technical experience in full stack development. With a keen interest in financial technology and a passion for scalable web development, I believe I can contribute meaningfully to your innovative work and be a fruitful member of your team.

At Elabs, KIIT's technical society, I currently serve as a Frontend Developer, where I collaborate with peers to build and optimize our official society app. This experience, coupled with my projects using React.js, Next.js, and Node.js, has helped me sharpen my skills in crafting responsive user interfaces and managing dynamic data with state management techniques like React Context. I also have experience in integrating RESTful APIs and working with MySQL and PostgreSQL databases, positioning me well for backend development tasks.

Beyond technical skills, I am actively engaged in extracurriculars that reflect my leadership and collaborative spirit. My participation in MUNSOC has enhanced my research and communication abilities, while my involvement in NSS has taught me the value of civic engagement and teamwork which is well appreciated at your company.

I am particularly drawn to BNY for its reputation as a hub for learning and working on projects under the guidance of mentors under whom I can assure you to deliver appreciable results within the designated deadlines. I am eager to be part of a company that values innovation, integrity, and continuous learning — principles that align perfectly with my personal and academic journey and which will help me gather a lot of knowledge.

I would appreciate the opportunity to bring my dedication and skill set to your esteemed team. Thank you for considering my application. I look forward to the possibility of contributing to BNY and growing under the guidance of its experienced professionals.

Warm regards,

Avik Halder
